| security information  |   |  |
| security information  | Siemens provides products and solutions with industrial security<br>functions that support the secure operation of plants, solutions,<br>machines, equipment and/or networks. They are important components<br>in a holistic industrial security concept. With this in mind, Siemens'<br>products and solutions undergo continuous development. Siemens<br>recommends strongly that you regularly check for product updates. For<br>the secure operation of Siemens products and solutions, it is necessary<br>to take suitable preventive action(e.g. cell protection concept) and<br>integrate each component into a holistic, state-of-the-art industrial<br>security concept. Third-party products that may be in use should also be<br>considered. For more information about industrial security, visit<br>http://www.siemens.com/industrialsecurity. To stay informed about<br>product updates as they occur, sign up for a product-specific newsletter.<br>For more information, visit http://support.automation.siemens.com.<br>(V3.4) |  |
